

Why Does My Customer Need an Account? For Annual Multi-Trip Protector (AMTP)

The Annual Multi-Trip Protector (AMTP) plan allows your clients the freedom to take as many trips as they want, knowing they're protected all year. This plan is perfect for travelers under the age of 80 who take multiple trips per year. Your client can purchase one plan and add trips throughout the year, input all trip details online through their Travel Insured account, and select optional benefits according to their needs for each trip.

Whether your client purchases independently or with your assistance, you will always receive commission for the sale as well as any subsequent sales of optional add-ons that occur throughout the year.

CUSTOMER INDEPENDENCE DOESN'T MEAN YOU LOSE OUT

Though we remain available to assist travelers, the AMTP was designed to allow travelers to manage their plan completely on their own, 24/7. Although the customer can manage their plan independently, the initial sale, all purchases of add-ons, and any renewals will always be commissionable to you.

After the initial plan purchase, you as their travel advisor won't be able to assist with adding trips or optional benefits. So if the traveler does not have a Travel Insured account at the time of purchase, [they must create one](#) with the same email address they entered when purchasing the plan. Their AMTP plan will automatically sync to their account.

THE ACCOUNT ALLOWS YOUR CLIENT TO:

- Add trips anytime
- Select optional per-trip benefits
- Download their plan documents
- Change their travel dates prior to departure
- Review plan details
- Manage user access

HOW THE PLAN WORKS

A set of base benefits applies to each trip and the maximum benefit amounts are applicable on a per-trip basis. Optional benefits are available to add to any trip at an additional cost, depending on the traveler's needs. For example, Cancel for Any Reason (CFAR) is an optional benefit that can be added to any trip prior to the scheduled departure date. If CFAR is purchased for a trip, it only applies to that trip as opposed to each trip included on the plan. Some optional benefits are subject to a time-sensitive period.

PURCHASING THE PLAN

You can assist your client with the purchase of the plan or direct them to www.travelinsured.com/multi-trip. From the purchase page, your client will be asked if they worked with a travel advisor during the purchase process. They must select Yes and enter your unique 5-digit agency number to ensure that you collect the appropriate commission.

Did you work with a travel agent?

If the agency is a Travel Insured Partner, they may have provided you with an Agency Number that can be entered below. This will have no effect on pricing or coverages and is not required for purchase.

☒ Yes ☐ No

Agency Number _____

TRIPS AND MODIFICATIONS

Your client can add new trips and make trip modifications through the Multi-Trip Plan tab inside their Travel Insured account. As your client learns their travel dates for each trip throughout the year, they can log in any time and add the trips to their account. Optional benefits, if applicable, must be selected at the time the trip is added. Your client can modify their own travel dates and trip costs at any time prior to departure.

CUSTOMIZABLE COVERAGE ALL YEAR

Everything your client needs is at their fingertips and you can rest assured that they have base coverage and great optional benefits to choose from, anytime. Want more details? Read our [Annual Multi-Trip Protector Agency FAQs](#) or direct your clients to www.travelinsured.com/multi-trip/faq.
